MetaServer
by CaptureBites

Intelligent Document Processing

Powered by AI where it **really matters.**

PRODUCT VIDEO

MetaServer is a powerful, easy-to-use IDP software platform that's scalable, affordable, and quickly implemented.

"Our mission is to ensure that even the smallest businesses can benefit from industry leading IDP."

- CEO CaptureBites

Documents are captured from a watched folder or email inbox.

...

MetaServer automatically classifies and extracts key data.

Validate flagged items, create searchable PDFs, compress files, imprint,...

Export your data to multiple formats and systems.

TIF PDF CSV SQL XML

- Flexible and affordable
- Unlimited page licensing
- No-code configuration
- Industry-leading recognition accuracy
- Premier technical assistance

If you can read it, MetaServer can!
