Summary	This application note provides and explanation of the steps necessary to activate a Kofax Express Software License
Revision	1.1

## Kofax Express Software License Activation Overview

Kofax Express is licensed using either a hardware license dongle or a software license. Prior to activating a software license, make sure that the computer is connected to the internet and the software license Part Number, Serial Number, and Product Code are available. The activation process will bind the license information to the computer and verify the activation with the Kofax Licensing Servers. This Application Note provides instructions for the following:

- <u>Activating a Kofax Express Software License</u>
- Verifying the Active License Information

#### Activating a Kofax Express Software License

1. Open Kofax Express by either double-clicking the desktop icon or by selecting it in the Start Menu under All Programs | Kofax Express.

2. If Express opens in Demo Mode, it will display a warning message that includes an Activate button. Click the Activate button.

Application Note

3. If the Demo Mode warning message is not displayed, Select the *Help* Ribbon and click the Activate button.
